(2) Staff shall be considered to have party status in all formal hearings.
B. The presiding officer may determine that the person either has a personal interest in the outcome of the hearing or represents a public interest in the result. The presiding officer may deny the request if the interest is not within the scope of the Commission's jurisdiction or if existing parties will adequately represent the interest. The order shall not be final until considered and adopted by the Commission. Copies of the proposed order shall be provided to all parties. Parties may file written exceptions to the proposed order for consideration by the Commission.

6.10 Reconsideration. A party may seek reconsideration of a final determination within 30 days after adoption by the Commission. The request for reconsideration shall specifically identify the grounds for reconsideration. The Commission may only grant a request for
reconsideration if sufficient reason exists. If the Commission does not act on a request for reconsideration within 30 days after it was filed, the request shall be deemed to be denied.

6.11 **Review.** Review of Commission orders shall be as provided in the Intergovernmental Agreement creating the Commission, or applicable franchise agreements, or as otherwise required by law.

In the event of any direct conflict between the Commission's rules and the rules of the Federal Communications Commission, the latter shall prevail.

Section 7. **Rate Regulation Procedures**

7.1 **Commission to Administer Rate Regulation in Accordance with FCC Rules.** Upon certification, the Commission will administer basic rate regulation processes in accordance with applicable FCC rules, in particular the Federal Communications Commission's Cable Rate Regulation, 47 C.F.R. § 76.900 to § 76.985. As used in these rules, the terms "basic service tier", "associated equipment costs", "actual cost of equipment", "cost-of-service", "basic service tier charge" as defined in 47 C.F.R. § 76.900 to § 76.985.

7.2 **Basic Rate Regulation.**

A. The Commission may initiate regulation of the rates for the basic service tier and associated equipment by providing written notification to a cable franchisee under the jurisdiction of the Commission. Such notice shall state that the Commission has been certified to regulate rates for the basic service tier, and shall request that the franchisee file its schedule of rates for the basic service tier and associated equipment within 30 days of receiving the notification.

B. After a franchisee has submitted for review its existing rates for the basic service tier and associated equipment costs, the existing rates will remain in effect or the proposed rates will become effective after 30 days from the date of submission; provided, however that the Commission may toll this 30-day deadline for an additional time by issuing a brief written order as described in paragraph C. hereof within 30 days of the rate submission explaining that the Commission needs additional time to review the rates.

C. If the Commission is unable to determine, based upon the material submitted by the cable franchisee, that the existing or proposed rates are within the permitted basic service tier charge or actual cost of equipment, or if the cable franchisee has submitted a cost-of-service showing seeking to justify a rate above the basic service tier charge, the Commission may toll the 30-day deadline in paragraph B. hereof to request and/or consider additional information or to consider the comments from interested parties as follows:

   (1) For an additional 90 days in cases not involving cost-of-service showings; or
   (2) For an additional 150 days in cases involving cost-of-service showings.

D. If the Commission has availed itself of the additional 90 or 150 days permitted in subsection B., and has taken no action within these additional time periods, then the
proposed rates will go into effect at the end of the 90 or 150 day periods, or existing rates will remain in effect at such times, subject to refunds in accordance with the Federal Communications Commission's Cable Rate Regulations, if the Commission subsequently issues a written decision disapproving any portion of such rates. In order to order refunds, the Commission must have issued a brief written order to the cable franchisee by the end of the 90 or 150 day period permitted in subsection C. directing the operator to keep an accurate account of all amounts received by reason of the rate in issue and on whose behalf such amounts were paid.

7.3 Written Decision. Whenever the Commission disapproves an initial rate for the basic service tier or associated equipment in whole or in part, disapproves a request for a rate increase in whole or in part, or approves a request for an increase in whole or in part over the objections of interested parties, such decision will be issued in writing, with public notice given and the text of any written decision released to the public.

7.4 Superseding Effect of FCC Rate Regulations. In general, the Commission will apply FCC rules and regulations to the basic rate regulation process as authorized by law, provisions of franchises and other agreements administered by the Commission and local laws to the contrary notwithstanding. In the event of a specific conflict between the rate regulations of the FCC and the provisions of a franchise, contract, ordinance, municipal law or policy, or rule including the rules of this Commission, the FCC regulation will prevail.
