

**CONTRACT AMENDMENT 2
FOR
Evaluation Services for MHCRC Grants in Public Education**

Pacific Research and Evaluation, LLC, ("Consultant"), and the Mt. Hood Cable Regulatory Commission, (the "Commission") have an existing contract for the provision of services. The Commission desires the Consultant to continue its evaluation of integration of technology into student learning. The Commission further desires the Consultant to continue analyzing effectiveness of implementing digital technology in instructional uses of digital literacy, curriculum, and technology tools in supporting and improving student learning and achievement, including under-served students and students with learning disabilities. The Commission believes that the analysis of impact of technology in implementing effective instructional strategies and practices in fostering improvement in student academic outcomes serves to identify the effectiveness of technology in supporting teachers in the classroom, serving to inform future decisions in the I-Net grant program. Consultant and the Commission have agreed upon terms for amending the contract ("Contract Amendment"). Now, therefore, the parties agree to the following terms:

1. This contract is hereby extended through July 31, 2018.
2. Additional work is necessary as described in the Statement of Work and Budget identified in Attachment 1 to this Contract Amendment.
3. Additional compensation is necessary in an amount not to exceed \$66,000, in order to complete the Statement of Work.

All other terms and conditions of the contract shall remain unchanged and in full force and effect.

This Contract Amendment may be signed in two (2) or more counterparts, each of which shall be deemed an original, and which, when taken together, shall constitute one and the same contract amendment.

The parties agree the Commission and Consultant may conduct this transaction by electronic means, including the use of electronic signatures.
