Representatives of the news media and designated staff were allowed to attend the executive session. All other members of the audience were asked to leave the room. R1. Pacific Research & Evaluation – TechSmart Evaluation Services Contract Extension

**DISCUSSION:** None

- Staff Activity Reports and Updates

- FCC proceedings

Goldenberg said the FCC has engaged in a whirlwind of activity. The City of Portland had joined other cities in a letter of support to continue the current FCC rules protecting Net Neutrality. Thomas asked if other MHCRC jurisdictions were notified of the opportunity to sign on to the mayoral letter. Goldenberg said she would check to ensure this happens.

- Federal legislative updates: None

- 2017 Oregon legislative session

Goldenberg reported that the Oregon legislative session had ended and although several bills were filed to preempt local jurisdictions from enacting right-of-way protections, none passed in Oregon. Pre-emption bills had passed in 12 other states. The Gigabit Exemption bill was not repealed and, therefore, Comcast may apply for a tax waiver as a gigabit provider.

- New Business; Commissioner Open Comment

Considering the quick dismissal of the lawsuit, Goheen expressed a desire to move forward with the TechSmart grant for Centennial School District. In response to Harden's question about school year 2017-18 budget, Omelchuck said Centennial had budgeted its grant matching resources for project implementation. Centennial would need to know within the next two weeks of the Commission's decision to approve the grant in order to begin concrete planning for the upcoming school year. Dicile said the Grant Committee was very enthusiastic about the grant project plan, but the full Commission would have to hold a work session and contract vote within next two weeks. The Commission agreed for staff to move forward with the grant process with the goal to execute a contract within the next two weeks. Omelchuck said she would need to take Centennial's lead on whether it would still be able to fulfill the original project plan on the delayed timeline. In answer to a question from Hansen, Omelchuck said the grant project plan would be re-worked if the current plan is not able to move forward for the 2017-18 school year. Commissioner's applauded the efforts of Centennial in preparing the grant and adapting to the changing timelines.

Dicile recognized the attendance of the two community media organization executive directors at the 2017 Alliance for Community media conference. Both directors presented robust panels at the conference.

- Adjourn: 8:37pm
